

MD. ASIF AL-MAHMUD

Software Engineer (Front-End)

+8801756833947 Email LinkedIn GitHub Portfolio

Professional Summary

Front-End Engineer experienced in the React ecosystem, specializing in developing responsive, performant, and user-centric web applications. Skilled in component-based architecture, modern state management, and reusable UI development. Passionate about maintainable codebases, clean UI, and optimized performance.

Technical Skills

Core: JavaScript, TypeScript, ReactJS, NextJS, HTML5, CSS3

State Management: Zustand, Redux Toolkit, Context API, Jotai

UI Libraries: Material UI, TailwindCSS, SCSS/SASS, Styled Components

Tools & Libraries: React Query, React Hook Form, Zod, React Beautiful DnD, Git, GitHub

Backend Familiarity: Node.js, Express, MongoDB, Mongoose

Mobile Familiarity: React Native

Professional Experience

Agency Handy

Sept 2025 – Nov 2025

Software Engineer (L2)

Dhaka, Bangladesh

- Developed and maintained key features such as **Service V2** and **Custom Fields**, improving workflow flexibility.
- Resolved critical production issues to ensure platform stability and performance.
- Mentored junior engineers and supported new hires for smooth onboarding.

Agency Handy

Sept 2023 – Sept 2025

Software Engineer (L1)

Dhaka, Bangladesh

- Designed and implemented major modules including **File Management**, **Public Forms**, **Invoice Management**, **Tax**, and **Timesheet**.
- Contributed across all modules, including the checkout system and complex form handling.
- Built reusable UI components with **Material UI**, accelerating feature development.
- Leveraged **React Query** for optimized server state handling, reducing redundant API calls.
- Collaborated with designers, backend engineers, and QA to deliver quality releases on schedule.

Onethread

May 2023 – Aug 2023

Software Engineer Intern

Dhaka, Bangladesh

- Contributed to front-end development using **React** and **TypeScript**.
- Implemented responsive UIs with **Material UI**, following company design standards.
- Assisted senior developers in building and refining key features.

Prayers Connect Inc

Apr 2022 – Sept 2022

Software Engineer Intern

Remote

- Assisted in building and maintaining web apps using **ReactJS**, **NextJS**, and **TypeScript**.
- Developed UI components based on design specifications using **Material UI**.
- Participated in daily stand-ups and sprint planning within an Agile team environment.

Education

Bangladesh University of Textiles

Bachelor of Science in Textile Engineering

Dhaka, Bangladesh
